Connecting People • Creating Opportunities

♥ *Hope Beyond Cancer*

RESTORING HOPE • SAVING LIVES • TRANSFORMING COMMUNITIES

No patient should fight cancer *alone.*

Cancabridge Africa is a non-profit organization that walks alongside vulnerable cancer patients, survivors, caregivers and families across Kenya, because no one should have to face cancer alone.

10,000+
Patients to Support

Counselling Sessions Done

OUR STORY

A diagnosis affects much more than a person's health.

Cancabridge Africa was founded by Francis Wesonga with the conviction that every patient deserves holistic support, regardless of their economic status.

It can drain a family's savings, interrupt school and work, and bring fear and isolation. We close these gaps by helping with costs, offering emotional support, sharing accurate information and helping survivors rebuild their lives. Like the bridge in our name, we connect patients and families to care, to each other, and to the people able to help.

Compassion · Dignity · Integrity · Partnership · Equity

Our Vision

A Kenya where every person affected by cancer is diagnosed early, treated on time, supported fully and able to live with dignity, whatever their income or where they live.

Our Mission

To restore hope, save lives and transform communities by making sure every person affected by cancer has access to compassionate support, information and the opportunity to live with dignity.

WHAT WE DO

Five Programmes, *One Mission*

Patient Welfare Support

Cost is one of the main reasons patients delay or stop treatment. We help families meet the practical needs that come with care.

- ✓ Tests, treatment & medication
- ✓ Transport
- ✓ Nutrition
- ✓ SHA guidance

Psychosocial Support

Cancer affects the mind and heart as much as the body. We make sure patients and families do not carry that weight alone.

- ✓ Counselling
- ✓ Survivor-led peer groups
- ✓ Home & hospital visits
- ✓ Grief support

Cancer Awareness & Prevention

Many cancers can be treated successfully when found early. We take information and screening closer to communities.

- ✓ Community education
- ✓ Screening campaigns
- ✓ Early warning signs
- ✓ Myths & stigma

Survivor Empowerment

Finishing treatment is a milestone, but rebuilding life takes time. We help survivors regain their independence.

- ✓ Skills & small business
- ✓ Livelihood projects
- ✓ Back to school & work
- ✓ Survivor champions

Research, Advocacy & Policy

Lasting change needs better systems. We speak up for fair and affordable cancer care for every Kenyan.

- ✓ Community data
- ✓ County & national leaders
- ✓ Care closer to home
- ✓ Patients' voices

Become a Partner

We partner with governments, hospitals, corporations, and faith communities. Every partnership extends the bridge between patients and the care they deserve.
